3. Tyykkilä 3.5. yctaara n3jokint b ctejyjoumen pejarkunnen:

The unique packaging technology of the company, which is based on the principle of "no waste", allows us to produce high-quality products that are safe for the environment and the consumer. The company's commitment to environmental responsibility is reflected in its products, which are made from renewable resources and are designed to be recyclable.

The signature is made by the head of the state, the president, or the prime minister, who signs it.
